

Job Posting

Location Rocklin, CA

Job title: Construction Manager

Reports To: Director, Construction

Purpose of Position: Manages, Leads, and coordinates construction staff and contract labor for Small Business, Residential RF construction and construction related system maintenance. Responsible for capital budgets associated with these projects and the safety and quality of work performed.

Responsibilities:

- Supervise and evaluate construction personnel; coordinate construction efforts through in-house and contract labor for new construction and rebuild projects both aerial and underground
- Represent the interests of Wave in a professional manner with governmental, municipal, and related industry organizations
- Coordinate and work with utility companies for all construction related work in the right of way, including but not limited to pole transfers, system maintenance, pole inspection, relocation of plant and plant extensions
- Coordinate with engineers and developers in designing the plant; work closely with staff responsible for designing, drawing and sketching installation and location of equipment such as nodes, amplifiers, power supplies and cables; complete material orders needed for planned construction
- Monitor contractor performance; ensure adherence to terms and conditions of agreements and ensure all personnel and contractors are adhering to local and state construction requirements and codes
- Perform site inspections for quality control and safety
- Coordinate permitting and make-ready process
- Ensure staff is responding to quotes for the residential and small business sales teams to meet tight deadlines
- Communicate with Project Manager or designated supervisor regarding concerns about construction progress.
- Review and process damage claims and work closely with staff in developing capital projects and purchase requests for the construction team
- Perform other duties as assigned or required

Qualifications:

- 5 years Cable Television or Telecommunications technical experience
- 7-10 years of experience in working and/or supervising a cable TV/telecommunications construction

department

- Knowledge of National Electrical Codes and G.O.95 and 128
- Valid driver's license and satisfactory driving record
- Ability to prioritize and organize effectively
- Ability to communicate orally and in writing in a clear and straightforward manner
- Ability to supervise and motivate others
- Ability to use personal computer and software applications (i.e. word processing, spreadsheet, etc.)
- Knowledge of cable television products and services
- Vision ability; close vision, peripheral vision and ability to adjust focus

Diverse Workforce / EEO:

WaveDivision Holdings (WDH) recognizes and strongly supports the benefits of a diverse workforce, and strives to provide a culture that recognizes the unique contributions of each of our employees. WDH requires a drug test, background check, employment, and education verification as conditions of employment. WDH is an equal opportunity employer and will consider all qualified candidates regardless of race, color, religion, national origin, gender, age, marital status, veteran status, and the presence of a non-job related handicap or disability, or any other legally protected status.

To Apply: Candidates may send cover letter and resume to hmgr@wavebroadband.com (please include job title and location of position in the subject line of your email)
